At last!

The cast and directors persevered through the trials and tribulations and finally presented *Haywire* in January. Our grateful thanks to Peter Horwood who stepped in to play the part of Alec Firth and also to the rest of the crew, directors and prompt Lynn Lunn who had to go through the whole rehearsal process again. What dedication!

Thanks to the generosity of our audience we were able to send a cheque for £217.00 to *Hospice in the Weald* to support their appeal for funding a new hospital.

The Odd couple

Steve Knowlden has selected his cast and rehearsals are going well. Tickets will go on sale from Burnett's in the last week of March

Annie, One, Two, Three

Three wealthy sisters, Mary, Martha and Miriam, live together in a luxurious house on a private sheltered estate for the elderly. They are all widows and the source of their money is a mystery to everyone, including Eric, the son of the oldest and most disagreeable sister, Miriam. The three sisters share another secret too ... something to do with World War II ... something that even they prefer to forget. But, on the 50th anniversary of VE Day, Martha is murdered and this is followed by a threatening letter to the other two sisters. Their lives are in danger and their secret is about to be exposed...

Rosemary Gillett invites all who are interested in the production to come to London House on Thursday 16th June for a read-through of the script. Auditions will take place, also in London House on Monday June 27th. Start time is 19:30 on both occasions
